

Let's improve business together!

Together with you, we, a team of passionate qualified professionals, would love to improve your business. By working together we can provide you with high quality, innovative, easy to operate and unique packaging solutions.

We guarantee you the lowest total cost of ownership and will not stop until you, and we, are 100% satisfied. We will make you as happy with Niverplast as we are working at Niverplast.

Available options

- With a fixed vertical filling position (SEPP90) or with a filling position of 45° (SEPP45). A version between vertical and each position till 45° is also possible. Any inclined SEPP can always be put vertical to change the format (motor operated).
- Thermo transfer print
- Register mark control to indicate the film position
- Film alignment
- Tape table for film change
- Trolley with a forklift function (to easily change the film roll and exchange parts)
- Vibrating module available (to optimize the filling of the bag)
- Module for gusseted bags
- Gas flushing
